METAKOR: FURNITURE FITTINGS CRAFTSMANSHIP SINCE 1938.

Metakor, based in Kortrijk, Belgium, produces and provides top-quality decorative furniture fittings. To this day, each piece reflects a commitment to excellence, meant to resonate with spaces where people come together, share and enjoy life's moments.

Metakor represents the essence of craftsmanship. Our dedication to precision and design gives life to timeless collections with character. Our handles signify more than function— they embody enduring style, uniqueness and reliability.

In 2024, we proudly present three new handle families, shine a spotlight on our timeless favourites and introduce a burst of colour to a selection of handles.

Navigating the catalogue

In our catalogue, all handles and knobs come with an assigned reference number. This is used when placing orders in your desired quantities. Each reference number ends with a specific number which details the finish of the product.

Our handles come in different sizes, for a perfect fit in your home. These dimensions are shown in millimetres for each handle and knob.

MONA ^{NEW}

Our new modern trim handle made of anodized aluminium in brushed black and satin-brushed brass. Clean and robust— it adapts perfectly to cabinets in all rooms of the house. Available in three different sizes.

COLOURFUL 2024

For 2024, Metakor doubles down on colour. We believe in infusing warmth, playfulness, and character into our living spaces.

At Metakor we offer carefully selected shades to seamlessly complement any home interior. Lots of character for you to implement. These colour options are an addition to our wide range of standard finishes.

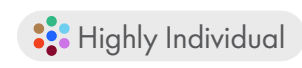

For those wanting to go even further, we offer our 'Highly Individual' Service— where everyone can find their specific colour.
